

International Project Summary

Brazil

OOG On the Job Training Program

Project name: OOG On the Job Training Program

Project Managers: Øystein Førsvoll and Stella Aguirre

Time period: Project development started August 2012

Place: Macaé, Brazil and Stavanger, Norway

Summary: On the Job Training is an OOG program established in cooperation with Stavanger Offshore Technical College (SOTS).

The purpose of this program is to establish an OOG OJT system in which personnel offshore are trained to meet requirements for their positions, enabling them to develop further skills and competencies. In addition, this system will allow the company to document and keep track of growth in personnel education and training.

The following positions are integrated in the program:

- Rig superintendant
- Toolpusher
- Driller
- Assistant driller
- Derrickman
- Assistant Derrickman
- Floorman
